HAS ACTOR SUICIDED?

The Wife of Raymond Hitchcock Thinks It Probable.

THE LATEST POLICE THEORY

They Believe the Commedian Has Gone to Canada and If So, Crime with Which He Is Charged Is Not Extraditable.

New York, Nov. 2.—The latest police theory regarding the whereabouts of Raymond Hitchcock, the comedian who disappeared on the eve of his indictment and probable trial on charges made by several young girls, is that the fugitive has gone to Canada.

A railroad conductor who is sure his train took Hitchcock and two companions as far as North Adams, Mass., Thursday furnished the clew.

It is learned that while in North Adams the men asked about the quickest route to Manchester, N. H. or Rutland, Vt. Late Wednesday night, according to advices received here, the men were seen in Bennington, Vt., so it is presumed they were making for Canada as fast as possible. It is said that if Hitchcock has fled across the border he will be safe there from extradition, as the crime with which he is charged is not extraditable.

Mrs. Hitchcock, wife of the actor, is bearing up bravely despite the keen anguish caused by her husband's plight and his apparent abandonment of her. She has taken her place in the "Yankee Tourist," the play in which Hitchcock was the star, appearing at every performance since her husband disappeared and going through the part as though nothing had happened. Though she is putting on a brave front and hoping for the best it is said that inwardly she fears that Hitchcock has committed suicide. This is also said to be the belief of a number of close friends of the actor who point to the fact that when he left home he was in no way prepared for the flight and had but a few dollars in his pocket.

HUNG HIMSELF IN CELL.

Suicided While Enroute to Serve Life Sentence.

Houston, Tex., Nov. 2.—E. C. McNair, recently convicted of wife murder at Beaumont, Tex., committed suicide by hanging himself to the bars of his cell in the county jail here on Thursday.

McNair was being taken to the penitentiary at Huntersville to serve a life sentence and was placed in jail here while enroute. His crime was committed at Port Arthur, Tex., where he shot his wife to death, wounded his mother-in-law and then shot himself in an ineffectual attempt to commit suicide.

Negroes Will Hold Fair.

Eatonton, Ga., Nov. 2.—Permission has been given the Negro Fair association of this county to hold a fair on the week following the fair given by the Putnam County Fair association, from November 12 to 16, at the white people's fair grounds. Negroes will be admitted to the white fair, also, but they want to have a display of their own. They have raised a large purse and engaged the side attractions as the white fair. They are also planning to secure the same racers for their track events.

Said To Have Planned Robbery.

Batoum, Trans-Caucasia, Russia Nov. 1.—Topuridze the noted bandit who was earlier in the train robbery of Oct. 25, has been captured and on the strength of his confession Prince Gregory Abashidze was arrested as the organizer of the robbery. Several railroad employees also have been sent to prison on suspicion of having taken part in the affair.

Alpha Ki Delta Society.

Morgantown, W. Va., Nov. 2.—The fourth biennial convention of the Alpha Ki Delta society of the United States is meeting here for a three days' session.

PLANS FOR MOVING CROP.

Measures Underway at New Orleans For Financial Relief.

New Orleans, La., Nov. 2.—Several plans for moving the cotton crop and thereby affording some measure of general financial relief were underway at New Orleans Friday.

Unofficially, word was received from Secretary of the Treasury Cortelyou that he will investigate the possibility of paying out cash at the New Orleans sub-treasury for money deposited by European cotton buyers with United States fiscal agents abroad. Several local exporters announced that they stand ready to do immediate business on this basis.

New Orleans bankers, acting in concert with state banks, have arranged to modify the present stringent rules about paying out cash, so as to favor the movement of both cotton and sugar. This plan contemplates a judicious distribution of available cash to country banks, which in turn distribute the money in an equitable manner among planters and small farmers, enabling immediate sale of crops.

Handling of spot cotton continues here, although the banks were closed on account of All Saints' day, a state holiday. The future trading branch of the Cotton Exchange also closed for the day, but the exchange remained open for spot business.

GEORGIA MASONS ADJOURN.

They Decide to Erect a Splendid New Temple.

Macon, Ga., Nov. 2.—The work of the present session of the Georgia Grand Lodge of Masons was concluded Thursday afternoon and the visitors left for their homes. The principal business of the day was the final determination to secure a new site and erect a large and commodious temple for the order in this city. The present building will be retained during the year, and in the meantime a committee entrusted with the duty will be looking over desirable lots where the new structure can be built.

Nothing will be determined as regards the price to be paid until this committee has made a thorough investigation.

Before the close the new officers were installed with impressive ceremony. The occasion was a happy one for those rising to new offices. It became the duty of Grand Master Meyerhardt to preside on this occasion, and the mantle of the high office was thrown upon the shoulders of the new man with a beautiful parting expression of good will.

INDIAN LAND FRAUDS.

Senaotrs Teller and Curtis Investigating Same.

San Antonio, Tex., Nov. 2.—Senator Henry M. Teller, of Colorado, and Senator Charles Curtis, of Kansas, are in the city en route to Eagle Pass.

They are members of the United States senate subcommittee on Indian affairs, appointed to take testimony in the case of the Kickapoo Indians, of Oklahoma.

Senator Teller is a member of the committee on Indian affairs, on finance and on appropriations of the United States senate. In speaking of the business which brings the subcommittee to Eagle Pass, he said:

"We are going to investigate the charges of fraud which have been made in regard to the transfer of certain lands which were the property of the Kickapoo Indians in Oklahoma. The land agents claim that the Indians sold their land after crossing into Mexico while the Indians claim they did not. Considerable testimony has been taken by the congressional committee appointed to investigate the matter but it was decided that the testimony of the Indians themselves would be desirable."

Brogans Sent Him to Prison.

Chicago, Nov. 2.—One pair of army brogans, valued at $1 and belonging to Corporal Randolph Miller of the Eleventh Recruit company, lured Private Walter G. Lightner of that company to the Leavenworth, Kans., government prison to spend a year at hard labor. Lightner was convicted at Fort Sheridan Thursday of having stolen the brogans in the barracks at Columbus, Ohio.

MUTINOUS OUTBREAK

Russian Sailors Shell the Port of Vladivostok.

KILLED THEIR COMMANDER

Batteries Ashore Answered the Fire, Killing Mutineers and Destroying Their Vessel—One Woman Took a Part in Mutiny.

St. Petersburg, Nov. 2.—According to the official report of the recent mutinous outbreaks of sailors at Vladivostok the crews of three torpedo-boat destroyers, the Skory, Serdity and Trevotshny, mutinied. Hoisted their flag and shelled the port, doing considerable damage to buildings and killing some soldiers and civilians.

The Skory, on board of which were revolutionary agitators, including one woman, took the lead in the mutiny, the crew rising at the instance of the agitators, killing the commander of the boat and wounding to other officers who were overpowered and confined below decks.

The fire of the rebellious torpedo boat destroyers was answered by the batteries ashore, and from the gunboat Manjour and the torpedo boat destroyer Grosovoy, Smely and several others.

They surrounded the Skory and poured a raking fire into her, which battered her to pieces, exploded her two boilers and caused fire to break out on board. Nearly all the mutineers of the Skory wer ekiled on the vessel. The three or four survivors threw themselves into the sea.

The mutiny on board the Trevotshny was quelled by her own crew after six of the mutineers had been killed and six wounded.

General Count Unterburger, commanding the military district at the Amur, has arrived at Vladivostok and assumed charge of the situation.

The United States embassy here received a dispatch from the consul at Vladivostok that the American who was wounded during the bombardment of Vladivostok by the mutinous torpedo boat destroyers is Harry Nietert, an employee of the Pacific Commercial company, who, it is believed, was struck by a shell.

GOOD AS GOLD.

Business Men Endorse Clearing House Certificate Plan.

Atlanta, Nov. 2.—The immediate and enthusiastic endorsement by the business men of Atlanta of the emergency plan adopted by the clearing house banks to furnish a supplemental currency was no more than was to be expected.

The certificates are backed by the combined credit and resources of all the banks making up the Atlanta clearing house. They are as good as gold. Leading merchants posted notices that these certificates will be accepted as cash in all transactions.

The circulation of these certificates simply means that $2,000,000 additional currency will be turned loose in Atlanta. When the emergency demand for it ceases, it will be retired.

The banks, following the lead of others in the larger cities throughout the country, are simply doing what the government failed to do for the business of the country. Their action has had an all-powerful influence in easing the situation.

$2,000,000 For Pay Rolls.

Cincinnati, Ohio, Nov. 2.—At a meeting of the Cincinnati clearing house association it was decided to meet the demands for pay roll purposes Friday and Saturday with currency as usual. The heavy demands for currency for this purpose come in the last two days of the week and it is estimated that $2,000,000 will be required.

Country Banks Limit Withdrawals.

Nashville, Tenn., Nov. 2.—Advices to the Banner from many points in Tennessee, North Alabama and Southern Kentucky show that country banks in those sections, as a general thing, are limiting withdrawals. The dispatches also state that the bankers have no fear of trouble.

GOVERNORS IN CONFERENCE.

Governors Glenn, Smith and Comer Meet in Atlanta.

Atlanta, Nov. 2.—The railroad situation in Georgia, Alabama and North Carolina in so far as it is affected by reduced passenger rates in the respective states, is the subject of an important conference at the Georgia executive mansion.

Attending the conference are Governors Hoke Smith, Georgia; R. B. Glenn, North Carolina; B. B. Comer, Alabama; Hon. W. D. Nesbitt, Alabama railroad commissioner; Judge S. D. Weakley and Hon. H. C. Selheimer, Birmingham, advisory counsel to Governor Comer.

Governor Glenn arrived in Atlanta from Raleigh Friday morning and was met at the train by Hon. T. B. Arendell, reading clerk of the North Carolina house of representatives and tentative candidate for congress from the fourth North Carolina district. He was driven to the Piedmont hotel, where he was later joined by Governor Comer and his legal advisors, who also arrived Friday morning.

The conference at the executive mansion began at 9:30 a. m., and was private.

The purpose of the conference is to bring about concerted and harmonizing action on the part of the three states, each of which is at present involved in litigation with the railroads over the passenger rate question.

NO OCCASION FOR ALARM.

Senator Warren on Recent Financial Disturbance.

New York, Nov. 2.—Senator Francis E. Warren, of Wyoming, who has just returned from a vacation trip abroad, was greatly interested in the recent financial disturbance and asked many questions about it. He said he believed there was no occasion for alarm, as the troubles were merely caused by the swinging back of the pendulum.

"These panics cannot hurt the country," said Senator Warren. "I have noticed that the country after each financial depression is much stronger than it was before. We see how really strong the nation is when these panics come. The fundamental industries of the nation are never shaken by these conditions. I am not advocating any idea to take powers or rights away from states, but I do think that something stronger than state control is necessary to govern the trust companies.

"These companies should have at least a 25 per cent in reserve, but we find when the upheaval comes that some of them have only 5 per cent. The power and efficiency of federal supervision over financial companies is manifest in the condition of the national banks in the present panic."

Miners' Wages Cut.

Seattle, Wash., Nov. 2.—The Grand Forks, B. C., miners and smelter employees of the Grandby Smelter company, will have their wages cut 50c a day commencing on Nov. 1. This will affect all the miners in the Phoenix camp, as the British Columbia copper company and the Dominion Copper company will make a similar cut.

Knoxville Saloons Close.

Knoxville, Tenn., Nov. 2.—As a result of the application of the Pendleton law, by which cities of Tennessee can reincorporate without saloons, over 100 saloons closed their doors in Knoxville Thursday. The city was quiet and whiskies were sold at any price. The voters voted on the law by special legislative enactment last March.

REPORTS OVERDRAWN

Not 15,000, But 200 Killed in the Disaster at Karatagh.

PERISHED UNDER LANDSLIDE

No Building in the Town Was Left Standing. All Being Leveled to Foundations—Relief Measures For Sufferers.

New Bokhara, Turkestan, Nov. 2.—The first reports of the disaster at Karatagh were exaggerated, instead of 15,000 persons only about 200 lives were lost.

Most of these perished in the landslide which buried [illegible] houses of the town.

Karatagh is situated in a natural amphitheater, among the Karatagh mountains [illegible] it on one side and a river on the other. At the time of the recent earthquake, a great part of the mountain broke away and fell upon the town.

Houses there were already falling on all sides from the violence of the earthshocks, and many of the [illegible] less inhabitants, unable to escape through the narrow streets, were covered by debris, were caught and buried.

No building in the town was left standing, the earthquake leveling them all to their foundations.

All the survivors were without shelter, and a relief expedition with supplies has left New Bokahara for the scene of the disaster.

TWO DEAD, ONE MAY DIE.

Domestic Troubles Lead to a Triple Tragedy at Memphis.

Memphis, Nov. 2.—As a termination of the domestic troubles in the household of J. B. Rutherford [illegible] persons are dead and a third is dying as the result of wounds inflicted by Rutherford after a quarrel with his wife.

Rutherford, who came to this city about five years ago from Covington, Tenn., and his wife had pending divorce proceedings, instituted by Mrs. Rutherford, were in progress.

Late Thursday evening the husband, who, it is stated, had been drinking, went to the boarding house where his wife had apartments and endeavored to obtain her consent to divorce proceedings and an effort at reconciliation.

Failing in his efforts, it is said he was about to attack the woman when Eugene H. Peete, a friend of the couple and at one time a deputy sheriff of Tipton county, Tennessee, rushed into the room. Rutherford already drawn weapon toward Peete, the apparently half crazed man firing the bullet going toward Peete and resulting in Peete's almost instant death. The second bullet was fired at the retreating form of a companion of Peete's but was without effect.

Turning to his wife Rutherford again fired, mortally wounding her and then placing the weapon to his own head fired for the fourth time, ending another life and his own.

Mrs. Rutherford was immediately removed to a hospital where she is being entertained for her recovery.

This arrangement, while a little inconvenient, is destined to prove highly satisfactory to the traveling public, and Mr. Goodwin declares he will enforce the law to the letter.

TOWN FOOTBALL TEAM.

Those Interested Will Meet at Band Stand Tuesday Evening.

Notwithstanding that two or three efforts to organize a town football team have failed, Dr. F. W. Craigin, who is an enthusiast on the game and one of the best players on the amateur gridiron, is determined to organize, if such a thing is possible, and requests The Sun to announce that on next Tuesday evening, the 5th inst., all interested and who would like to join the team, will meet at the band stand on the north side of the square, when an organization will be completed.

"The young men of the town—that is, the athletic young men—are deeply interested in football," remarked Dr. Craigin, in speaking of the prospect. "The only trouble has been that the dates for meetings have been called at times when it was inconvenient for many interested to attend, with the result that some have become discouraged; but we have the material, and we will yet organize a team which will be a credit to the city, and we will make it warm for some of these other State teams."

The outfit was selected for Dr. Strouse by his friend, Dr. Neiswanger of Chicago, one of the leading authorities on electro-thereputics. Dr. Strouse says that he has been so wonderfully benefited by Dr. Neiswanger and has seen such wonderful results through electrical treatment that he felt Gainesville should be up-to-date.

Park Dramatic Company opens Monday, November 4, for one week's engagement with the best company Mr. Park has ever had the pleasure of introducing to Gainesville patrons. No old plays, but only the latest metroplitan successes. Each and every production will be presented with original scenery and wonderful electrical effects; new and gorgeous costumes, beautiful music, latest moving pictures and illustrated songs. The company comes direct from the East, where they have played to phenomenal houses. The vaudeville artists engaged for the celebrated concert are all A No. 1, and their specialties are all up-to-date.

Although the expenses have been greatly increased the price of admission will remain the same: Children, 25 cents; adults, 35 cents.

The location of C. W. Park's mammoth water-proof canvas theater will be corner of South University and Arlington streets.

Follow the crowd Monday night and witness the best dramatic performance ever given in your city, when the C. W. Park company will be here.

LINGERING COLD

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used." This remedy is for sale by all druggists.

Cured of Bright's Disease.

Mr. Robert O. Burke, Elnora, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get up from twelve to twenty times a night, and I was all bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living, when a friend recommended Foley's Kidney Cure. One 50-cent bottle worked wonders and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease. J. W. McCollum & Co.

ALL WOMEN SUFFER

from the same physical disturbances, and the nature of their duties, in many cases, quickly drift them into the horrors of all kinds of female complaints, organic troubles, ulceration, falling and displacements, or perhaps irregularity or suppression causing backache, nervousness, irritability, and sleeplessness.

Women everywhere should remember that the medicine that holds the record for the largest number of actual cures of female ills is

Lydia E. Pinkham's Vegetable Compound

made from simple native roots and herbs. For more than thirty years it has been helping women to be strong, regulating the functions perfectly and overcoming pain. It has also proved itself invaluable in preparing for child birth and the Change of Life.

Mrs. A. M. Hagermann, of Bay Shore, L. I., writes:—Dear Mrs. Pinkham:—"I suffered from a displacement, excessive and painful functions so that I had to lie down or sit still most of the time. Lydia E. Pinkham's Vegetable Compound has made me a well woman so that I am able to attend to my duties. I wish every suffering woman would try Lydia E. Pinkham's Vegetable Compound and see what relief it will give them."

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female illness are invited to write Mrs. Pinkham at Lynn, Mass. for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law Lydia E. Pinkham in advising. Therefore she is especially well qualified to guide sick women back to health.

A GREAT PARADE

Is That Given by Gentry Brothers' Famous Shows.

The parade given by Gentry Brothers' Famous Shows is conceded by all showmen to be the most beautiful miniature pageant ever organized. It is a mile and more in length and is replete with new and novel features. At the head of the glittering procession rides Frank Gentry, the youngest of the four brothers, and behind him in bewildering procession follow innumerable cages, bandwagons, highly decorated circus wagons, prancing ponies and animated animal actors.

The dogs occupy the first carriages in the parade. Bedecked with ribbons and medals, they languidly survey the passing throngs, only becoming interested when an envious street canine barks defiance. Then come the pretty Shetland ponies. There are almost two hundred of the diminutive horses, no two alike, and everyone a beauty. Some are hitched to bandwagons and cages, others follow in single file. With arched neck and haughty bearing, they keep perfect step to the music discoursed by two military bands.

The cages of grinning monkeys and baboons, the ponderous elephants, stately camels, roaring lions, tigers, and hosts of trained sheep, cows, cats and pigs follow close behind, some in cages, all serving the general purpose of making one of the most complete parades ever presented in the South.

A clown band and a steam calliope comprise the tail-end of the procession. To the small boy's way of thinking, without these two the parade would not be worth while.

Gentry Brothers' Famous Shows will parade the streets of Gainesville Wednesday morning, the procession leaving the circus grounds promptly at 10:30 o'clock.

General Booth Stirs New York.

New York, Nov. 2—The religious fervor which characterizes the Salvation Army will be much heightened by the arrival here of General William Booth, the patriarchal leader of the organization. Indeed inasmuch as the general's present tour of the United States will probably be his last, his stay of about a week will be made a sort of triumph. Governor Hughes and representatives of every walk of life will participate in a series of public meetings arranged in the veteran evangelist's honor. General Booth will deliver three addresses in the New Amsterdam theater on Sundy and it is expected that all of them will be attended by big Salvationist demonstrations.

If you have any salesmanship in you it will show in your ad.

President Roosevelt seems to be playing the 'posum against the coon.

The investor who does not read the real estate ads. is not much of an "investor."

Hon. Joseph Cannon is now preparing to assemble and go into session in Washington.

It begins to look as though some of those Presidential booms had suffered tire punctures.

Prof. Lombross declares that Harry Thaw is unquestionably insane. Which arouses our first serious doubt on the subject.

It would be interesting to know how the New York panic looked to James Hazen Hyde from the safe vantage ground of Paris.

Now they are fussing about widening the Panama canal locks. At least this indicates that there are going to be locks to widen some day.

The Dick law is not popular with the Florida State troops. The Florida soldier boys say Uncle Sam's military rules are too stringent for them.

Newport critics accuse Gladys Vanderbilt's noble fiance of being a dead-head. This is an objection that probably will disappear after his marriage.

We suppose that tariff revision is among the things that come to those who wait, but some people are careful enough to die before they get through waiting.

When a man defers, and then decides to advertise because he finds it is hard to write an ad, he will fail to send important customers because they are hard to reach.

The people of Orlando have organized a Law and Order League, the object of which is to close the "blind tigers" which it says infest Orange county in defiance of the prohibition of the sale of liquor.

The Board of Trade of The Lake City is working for the establishment of a cotton factory in that town. We believe he will have accomplished more for the industrial welfare of the city than any man has done in the past. Success to him.

The Jacksonville saloon men are reported to be very uneasy regarding the outcome of the approaching wet and dry election in Duval county. Some of them concede that the county will go dry, and are pleading for time in which to arrange their business affairs. As The Sun remarked prior to the election in Escambia county, when Duval county votes dry saloon men will be fools to take out licenses

EUCALYPTUS.

Says The Florida Agriculturist: We believe that those who are interested in reforesting this State (do you think that it is too early to talk of reforesting?), will do well to investigate the Eucalyptus. Mr. Geo. H. Wright described his disastrous experience with some seed which he planted. It is evident that the variety which he tried was not suited to his locality, but that is by no means satisfactory evidence that some other species would not thrive on that very land.

Baron Von Mueller describes sixty species, among them some which have stood the winters in England, and one even as far North as the southern part of Scotland, a specimen thirty years old being in existence there at the time he wrote.

Years ago, we saw specimens in the southern part of the State, which were thirty or forty feet high. We have no doubt that there are specimens which can be grown throughout the orange-growing section.

We do not believe that our people understand what a valuable timber tree Eucalyptus is. The most hardy varieties are not the most valuable, yet they are all good, furnishing lumber which is used for building, fencing, etc.

Remember that the species are all very rapid growers and could be made into lumber at an age when yellow pines planted at the same time were still mere saplings.

We find that we had overlooked the fact that Baron Von Mueller mentions four species, which are not described among the 60, which he says all reach heights covered with snow for several months of each year. Of course they would live farther north than any part of Florida.

NOTHING ELSE "JUST AS GOOD."

A merchant with a talent for "dreaming" once remarked that he wished that he could organize a "personal propaganda" of this sort—

He would quote a half dozen bargain prices to one woman. She would tell three of her friends. Each of these in turn to be obligated to tell three of her friends. The chain to thus grow until a "circulation" had been obtained for his ad equal to that of the best newspaper in town.

"When one woman tells another of a bargain to be obtained at a certain store, the other woman will, in two cases out of three, manage to get to the store to see about it," he argued. "And that's why such a plan would keep the store full of customers."

There are a few defects in the plan. One of them is the time it would take to "circulate" this "spoken ad." An occasional "link" in the chain would be broken by a woman being away from home perhaps shopping at another store when the "personal advertisement" called.

Another defect is the fallibility of human memory and testimony. By the time the ad had traveled to the tenth person in progression it would not remotely resemble the original and visitors to the store would be demanding to buy bargains which the merchant never heard of. After any statement, story or bit of gossip has been told, on to the tenth progression, its original author will repudiate it absolutely. This phase of the matter alone would not only wreck the plan, it would wreck the store that tried it.

The newspaper carries the merchant's story intact and in a few hours to more women than could be reached by the human chain plan in a month.

No other advertising is better. No other is just as good.

Well, at any rate Great Britain has never produced a bishop who was an expert bear hunter.

Cuba has accumulated a national debt and is threatened with a general strike. But she will have to come to the front with a war scare and a financial panic before she can be considered a real addition to the family of nations.

It is announced that Gladys Vanderbilt will have to marry her foreign count three times to make the union legal. Well, girls, it is a comfort to think that she will only have to be divorced once to make it legal.

Just when everybody thought the New York panic had passed without any evil results, we discover that it has furnished Tom Lawson with the excuse for another magazine article.

They accuse Col. Bryan of having built himself up by free newspaper advertising. But if a politician ever pays space rates for it somebody is sure to call him crooked.

So far as the most New York politicians are concerned Gov. Hughes' indifference to the Presidential nomination does not seem to be of a very convincing quality.

As though she did not have enough to answer for, the Census Bureau has now pitched on the mother-in-law as the moving cause in the majority of divorce suits.

SEA ISLAND COTTON.

Savannah Market Quiet and Prices Considerably Lower.

Savannah, Ga., November 2.—The market for Sea Island ruled dull and easy most of the week, and prices are lower. The demand was chiefly for choice. Stocks of extra choice and full extra choice are rather large and pressed for sale, but those grades were somewhat neglected. The financial troubles North hampered the market by making it difficult for Northern spinners to finance their purchases, and most of the business was for foreign account. Lower exchange necessitated reduction of limits, and consequently fancy, although very scarce, was also lower. The quality of the receipts shows an improvement. The market was somewhat shadier at the close.

There were no new developments on the crop, and reports of disappointing results are still being received, and there is much disposition to hold.

Always Was Sick.

When a man says he always was sick—troubled with a cough that lasted all winter—what would you think if he should say he never was sick since using Ballard's Horehound Syrup? Such a man exists. Mr. J. C. Clark, Denver, Colorado, writes: "For years I was troubled with a severe cough that would last all winter. This cough left me in a miserable condition. I tried Ballard's Horehound Syrup and have not had a sick day since. That's what it did for me." Sold by W. M. Johnson.

Gets Low Water Rates.

Charlotte, N. C., Nov. 2.—The board of water commissioners have voted to put the new water rates in effect the first of the year. The new rates are an increase of about 20 per cent over the old rates, which were graduated from 25 to 7 cents per one thousand gallons, according to the amount used. Charlotte owns her own water plant and in the past municipal ownership has resulted in a large saving to the citizens.

THE PERFECT WAY

Scores of Florida Citizens Have Learned It.

If you suffer from backache, there is only one way to cure it.

The perfect way is to cure the kidneys.

A bad back means sick kidneys.

Neglect it, urinary troubles follow.

Doan's Kidney Pills are made for kidneys only.

S. B. Lemons, cigar maker, living at 1311 Ashlet street, Tampa, Fla., says: "I used Doan's Kidney Pills and they cured me of backache and disorder of the kidneys. Two or three times on account of the pain in my back I was unable to work for several days. The secretions of the kidneys were in a very bad condition, dark in color, and if allowed to stand would become of the consistency of jelly. I tried various remedies, taking what seemed like gallons of medicine and I also put on plasters, but nothing helped me at all until I got Doan's Kidney Pills upon the advice of a friend of mine, and using them according to directions they cured me in a very short time.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

New York Japs to Celebrate.

New York, Nov. 2.—The Japanese of New York will celebrate the sixty-first birthday of their emperor by a mass meeting at Carnegie Hall. The emperor's birthday falls on Sunday. The gathering, it is said, will be the first great mass meeting of Japanese ever held in this city. The first great mass meeting of Japanese ever held in this city. The entertainment will consist of addresses by prominent Japanese residents, Japanese music, a theatrical performance by Mme. Hanako and an exhibition of wrestling and Jiu-Jitsu.

Georgia Pensioners.

Atlanta, Nov. 2.—Commissioner of Pensions John W. Lindsey has submitted to the governor his annual statement in regard to the pension fund paid out for the year 1907, and the amount to be paid out for 1908. The report shows that 15,706 pensioners were paid this year and that in 1908 there will be only four more, 15,710 to be paid. The amount paid out for 1907 was $932,638.85, and the sum appropriated for 1908 is $935,177, which Colonel Lindsay states will be amply sufficient for the purpose.

We have used Chamberlain's Cough Remedy in our home for seven years, and it has always proved to be a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough.—Rev. James A. Lewis, Pastor Milaca, Minn., M. E. Church. Chamberlain's Cough Remedy is sold by all druggists.

Played with Gun; Child Killed.

Louisville, Ala., Nov. 2.—The 2 years old son of Jean Orrick was accidentally killed by a gun in the hands of his 10 year old brother, Rube. The gun had been brought by his uncle, John Orrick, who had just returned from a hunting trip, and stood the gun up in the back room, where the children were playing. The gun was discharged, the contents of the same blowing off the back of the child's head.

RHEUMATISM
BLOOD FILLED WITH URIC ACID

Rheumatism comes from an excess of uric acid in the blood. This acid circulating through the system acts as an irritant to the different muscles, nerves, bones and tissues of the body, and produces the inflammation and swelling of the joints and the sharp, cutting pains characteristic of the disease. When the blood is overburdened with uric acid it contaminates the whole system, grows weaker and more acrid, and poorer in nourishing qualities. Then Rheumatism becomes chronic, and not only a painful, but a formidable and dangerous disease. Sometimes the heart is attacked, the general health is affected and the oils and fluids which lubricate the muscles and joints are destroyed by the acrid matter which the blood is constantly depositing in them; the muscles shrink and lose their elasticity, the coating of the joints becomes hard and thick, and often the sufferer is left a hopeless cripple. S. S. S. attacks the disease at its head, goes down into the circulation, and by neutralizing and removing the uric acid from the circulation and building up the thin, acrid blood, cures Rheumatism permanently. S. S. S. changes the sour, acid-laden blood to a rich, healthy stream which quiets the excited nerves, eases the throbbing pain in the muscles and joints, and filters out of the system the irritating matter which is the cause of the pain and inflammation. Begin the use of S. S. S. now and get the uric acid out of your blood so that the cold and dampness of Winter will not find you in constant pain and misery. Book on Rheumatism and any medical advice free.

WORK PROGRESSING NICELY.

Superviser Emerson Has Constructed Already a Half-Mile of Road.

Superviser Jesse R. Emerson, who is constructing the new road towards Newberry, came to the city Saturday and reported fine progress, stating that already more than a half-mile of road had been constructed, with the prospects for better work next week ahead.

Mr. Emerson states that the material used on this road has a most peculiar formation in pit, but that it works out admirably, and will serve the purpose all right. The clay is of a very tough, subsistent nature, and is bound to make a road which will prove of lasting qualities, although in continued inclement weather it may prove rather hard on teams. He does not know this, however, but from the nature of the material he thinks such conditions may be possible.

Superviser Emerson has a good force engaged on this work, and it is possible to do a good job.

THE GAINESVILLE DIRECTORY.

New City Directory Will Show Big Increase in Population of City.

Jesse E. Burtz, compiler and publisher of the Gainesville Directory, has been considerably delayed in the publication of his book for 1907-8, but hopes to have the same before the public in a short time. There has been in the compiling of this work many disadvantages which it will be useless to explain, but the compiler has worked earnestly and regularly in the discharge of his duty, and when the new book is out it will be a credit to the city.

The book will contain all new illustrations, and will be printed on the very best of enamelled book paper that money can buy. No expense or pains has been spared to make the work one which will be appreciated, perfect in every way, and as accurate as a directory can be made.

The compiler will show that the population of Gainesville has considerably increased since his last work two years ago.

RAILROAD SHOPS REOPENED.

Men at High Springs Shops Returned to Work on November 1.

A few days ago the railroad shops of the Atlantic Coast Line in High Springs which are the largest in the State closed down, owing, it is said, to the fact that the appropriation for operating expenses of these shops had been exhausted.

By this action more than a hundred machinists were thrown out of employment, many of whom declared that they would leave their benches and seek employment elsewhere However the shops reopened on Friday November 1, as promised, and Foreman James Day, who was in Gainesville Saturday, stated that work was resumed without incident, the greater number of the men being reported for duty.

The railroad shop is the main-stay of High Springs, employing a great deal of skilled help. The people of that town are naturally glad to see the shops resumed there.

ANNUAL CONFERENCE.

African Methodists Are Now in Session in Gainesville.

The seventeenth annual conference of the A. M. E. Zion Church met in Harris Chapel on October 30th, 1907, Rt. Rev. Bishop A. Walters, A.M. D.D. presiding.

The conference was opened with devotional exercises. Then the regular business of the conference was taken up. At 3 p. m. Mayor W. R. Thomas delivered the address of welcome. In his address he commended the appearance of the ministers, and said many good things to them, and assured them that they would be protected and respected while in the city. Rev. R. W. Ballard preached the annual sermon. It was full of thought, and in fact, was a spiritual treat. The conference has made an improvement along all lines.

We have two of our general officers visiting the conference, Rev. John F. Moreland, Ph.D., manager of our publishing house at Charlotte, N. C., and Mrs. A. W. Blackwell of Philadelphia, corresponding secretary of the W. H. and F. M. Society. Dr. T. W. Dockins of the Cookman Institute of Jacksonville addressed the conference Saturday.

R. H. Ayer was introduced to the conference and made some very fine remarks, and I think about all of the colored clergy of the city visited the conference and encouraged us in their speech.

Conference adjourns Monday, November 4th. E. C. SIMMS, Reporter.
